

## **EMPLOYMENT OPPORTUNITY**

The Town of Deseronto is currently seeking qualified individuals to assist with the operation and maintenance of the municipal water and wastewater facilities (WT-3, WD-1, WWT-3, WWC-2). Duties include, but are not limited to, treatment process monitoring and control, sample collection, routine laboratory analyses, equipment maintenance, distribution and collection systems maintenance, water meter reading and repair, and building and grounds maintenance.

The position is 40 hours per week and requires participation in the on-call rotation (30 min. response) and weekend duty (every third week).

The ideal candidate will possess the following qualifications:

- Post-secondary diploma or degree in a related technological or scientific discipline
- Operator certification for water and wastewater facilities
- Knowledge of relevant provincial and federal legislation and guidelines
- Mechanically inclined with ability to troubleshoot basic mechanical and electrical defects
- Understanding of applicable health and safety regulations and standard practices
- Proficiency in standard software packages such as Microsoft Office applications
- Certification in an applicable recognized trade is considered an asset

The Town of Deseronto offers a competitive salary (commensurate with qualifications) and a comprehensive benefits package.

Interested persons are invited to submit a resume and covering letter on or before 4 pm Friday April 7<sup>th</sup>, 2023 to:

**Fred Dubeau**  
**Town of Deseronto (Water & Sewer Dept.)**  
**331 Main Street**
