

## **City of Summerside**

*Small City...Big Opportunity!*

### **Wastewater Treatment Plant Operator**

The City of Summerside has a challenging opportunity for a responsible individual for the position of Wastewater Treatment Plant Operator. Regular work hours are Monday to Friday, 40 hours/week (day shift) with overtime when required. As the Wastewater Treatment Plant Operator, you must understand the proper operation of a wastewater treatment plant and perform laboratory tests such as PH, temperature, TSS and C.O.D. Other responsibilities of this position include:

- Maintaining accurate and orderly records
- Troubleshooting process issues
- Perform maintenance of equipment

To be considered you must have a provincial Wastewater Certification Level 1, be of good character, in sound physical condition and mentally alert. The successful applicant must be capable of performing a wide variety of tasks with minimum supervision and must have a valid drivers' license.

The City of Summerside offers a superior work environment along with an attractive benefits package including a pension plan, medical/dental coverage, paid sick leave and vacation beginning at 3 weeks a year. Salary is dependent on the operator certification level, with very recent adjustments, the current range is \$30.48 to \$36.67.

Applicants are invited to submit a confidential resume including work related references, clearly marked "Wastewater Treatment Plant Operator" by 1pm, **Tuesday, September 5, 2023** to:

Department of Human Resources  
City of Summerside
