

ASSOCIATE MEMBER (PRIVATE SECTOR) APPLICATION FORM

The private sector (e.g. manufacturers, suppliers, consultants, commercial services, service providers) is an important player in the water and wastewater industry. Membership in CWWA is the cost-effective way for the private sector to keep abreast of developments in the industry, stay in touch with key people and expand clientele. CWWA also helps the private sector play its part in addressing the above issues and in developing the industry through its participation in a strong national organization. CWWA's increasing international affiliations may be of particular interest to the private sector, and help develop business opportunities abroad. Your branch offices may also join at a nominal fee.
